

Internet Kapellgången 1 och 6

How to get started

If you are a tenant who lives at Kapellgången 1 or 6, you won't have access to our internet. You will need to sign an agreement with Framtidens Bredband instead.

To get started with your internet, please visit their webpage. When you are signing an agreement, you will need to state the number on your media box and not your apartment number. On Framtidens Bredband's webpage, you will find more information about their services, answers to commonly asked questions and how to contact them.

Report a fault

Since your internet agreement is with Framtidens Bredband and not us, please contact them to report a fault. Unfortunately, we cannot help you.
