

Access to the pool

As a tenant you have the possibility to get access to the pool at Gibraltargatan 80. In order to access the pool you need the Aptus tag that belongs to your apartment.

As property owners we have many laws to follow, for example the rules of procedure. Therefore, in order to use the pool, you have to read through and accept the included, hygiene and rules of procedure. You will then get access on your Aptus tags for one year, after that you need to visit us in order to prolong it. If the rules are violated the access will be removed.
